- 04.04.1 Public purpose. TTU, ASU, and MSU are publicly supported institutions which are obligated to provide instruction in higher education, to advance knowledge through scholarship and research, and to provide related services to the community, the state and the nation. TTUHSC and TTUHSC El Paso are publicly supported institutions which were established to provide opportunities for higher education in the health professions and related fields, to advance knowledge through scholarship and research, and to provide related services to the community, the state, and the nation.
- 04.04.2 Responsibilities of the TTU system. As centers for learning, component institutions have the obligation to maintain conditions which are conducive to freedom of inquiry and expression in the maximum degree compatible with the orderly conduct of their functions. The responsibilities of the TTU system dictate, to a major extent, the responsibilities of the individual faculty member. The faculty member is properly concerned with the whole process of education and is aware of the responsibilities of the TTU system in a free society. Responsibility is assumed for performing several essential functions: teaching, research, and service to the schools, to the community as a whole, and to individual members of the community as needed. Component institutions of the TTU system shall not adopt policies or rules allowing for an academic boycott that would deprive students or faculty members of the ability to study or conduct research in or about a foreign country or to interact with its scholars or representatives. Notwithstanding, academic boycotts of a foreign country are allowable if a foreign country is a state sponsor of terrorism, as defined by the U.S. Department of State.
- 04.04.3 Teaching. As a teacher, the faculty member has responsibilities to students, to a discipline, to a profession, and to the TTU system. by the scholars who are an integral part of the TTU system community.
